

SURVEYS

“ It's not enough to do your best; you must know what to do, and then do your best

- W. Edwards Demin

Having accurate and relevant data is essential for informed and savvy decision-making in an organisation. To ensure the best outcomes for your customers, and provide better support for your staff, our surveys apply an invaluable 'pulse check' for your business.

Are you leveraging the skill or leadership competencies of your staff? Are they engaged in the work that they do? How do staff attitudes towards the business change between entry and exit? Do your staff feel safe in their environment when they come to work? These questions can be answered with our surveys that are customised to your unique organisation.

Iedex surveys provide you with the data to recognise hidden opportunities and the expert support to plan strategic steps forward. By asking the right questions and filtering inconsistent data, each organisation can collect rich and meaningful data to inform strategic decisions.

Unlike other surveys platforms in the market, Iedex surveys are created with the support of an expert staff and 20 years of benchmark data. Our surveys are an invaluable support for informed decision-making, ensuring that our clients thrive into the future.

Our proprietary software offers clients the ability to capture the data that is relevant, accurate and benchmarked. We empower your decision-makers to formulate creative ways to engage your customers, employees and stakeholders. Our surveys are essential for creating strategies that will really set you apart.

Surveys

Key Benefits

Customisation

Iedex tailors each survey to the needs of your organisation with unique questions that reveal key areas for improvement. Survey customisation ensures that our findings are reliable, relevant and actionable.

Expert Recommendations

Followed up with extensive survey reporting and optional expert recommendations, our Iedex consultants can guide organisations to take meaningful steps forward. Our consultants are highly experienced and work closely with you to ensure that the recommendations are relevant and fully understood.

Security

Ensuring peace of mind for each client, all survey data is housed locally and securely on Australian servers. This is also compliant with government requirements.

Validation

Unlike other survey platforms, Iedex guarantees a high level of data integrity through the filtering of response anomalies.

Comparison Data

To get a relevant snapshot of business performance, Iedex provides a comparison with available industries data, and within the organisation itself. On a micro-level, time-lapsed surveys can additionally provide each client with invaluable team and employee survey data.

Clear Visibility

Highlighting key areas for development in data reports and expert recommendations, each client gains clear visibility of their strengths and opportunities for improvement.
